IBL Consulting
International Business & Logistics

The Buyer's Guide for Warehouse Automation is a cooperation between LogistikNachrichten and IBL Consulting

LogistikNachrichten does Sales & Marketing

IBL Consulting does the number crunching!

Finding one version of the truth in 3 easy steps.

SALT - Needs Analysis

Which areas do you want to improve?

S - Space

A - Accuracy

L - Labor

T - Throughput

SALT Checklist + Interview

Systems Comparison Tool

Total Cost of Ownership

1: Tell us about your warehouse needs

2: We'll match the right system

3: We'll estimate your system's TCO

Buyer's Guide for Customers

Buyer's Guide for customers

€ 7500,- Report Fee

Applicable for warehouse automation projects for bins only

- 1- Project briefing
- 2- Needs analysis using SALT checklists
- 3- Up to 2 scenarios based on growth models
- 4- System Evaluation Report
 - Comparative Systems Analysis
 - Total Cost of Ownership Analysis
 - Investment Cost Analysis
- 5- Final briefing upon request

The customer receives a report and an excel file. The figures in the report are estimates only: for shelves, WCS, bins, workstations, labor cost, building rental, depreciation and the warehouse automation systems. Extra charges apply in case system integrators update their solutions.

The report does not include additional services: WMS costs, site surveys, scaling scenarios. Each additional SALT checklist evaluation: € 2000,-

Buyer's Guide for warehouse planners

€ 15000,- Report Fee

Applicable for warehouse automation projects for bins only

- 1- Project briefing
- 2- Needs analysis using SALT checklists
- 3- Up to 6 scenarios based on growth models
- 4- System Evaluation Report
 - Comparative Systems Analysis
 - Total Cost of Ownership Analysis
 - Investment Cost Analysis
- 5- Final briefing upon request

The customer receives a report and an excel file. The figures in the report are estimates only: for shelves, WCS, bins, workstations, labor cost, building rental, depreciation and the warehouse automation systems. Extra charges apply in case system integrators update their solutions.

The report does not include additional services: WMS costs, site surveys, scaling scenarios. Each additional SALT checklist evaluation: € 2000,-

Compare your current manual warehouse with ASRS solutions:

- 1) cube storage,
- 2) roaming shuttles,
- 3) autonomous mobile robots,
- 4) vertical lifts,
- 5) shuttles,
- 6) miniloads.

Choose from **12 different systems** in our Systems Comparison Tool based on your individual business needs: **your bin, your building, your needed system performance.**
